

## Day 10

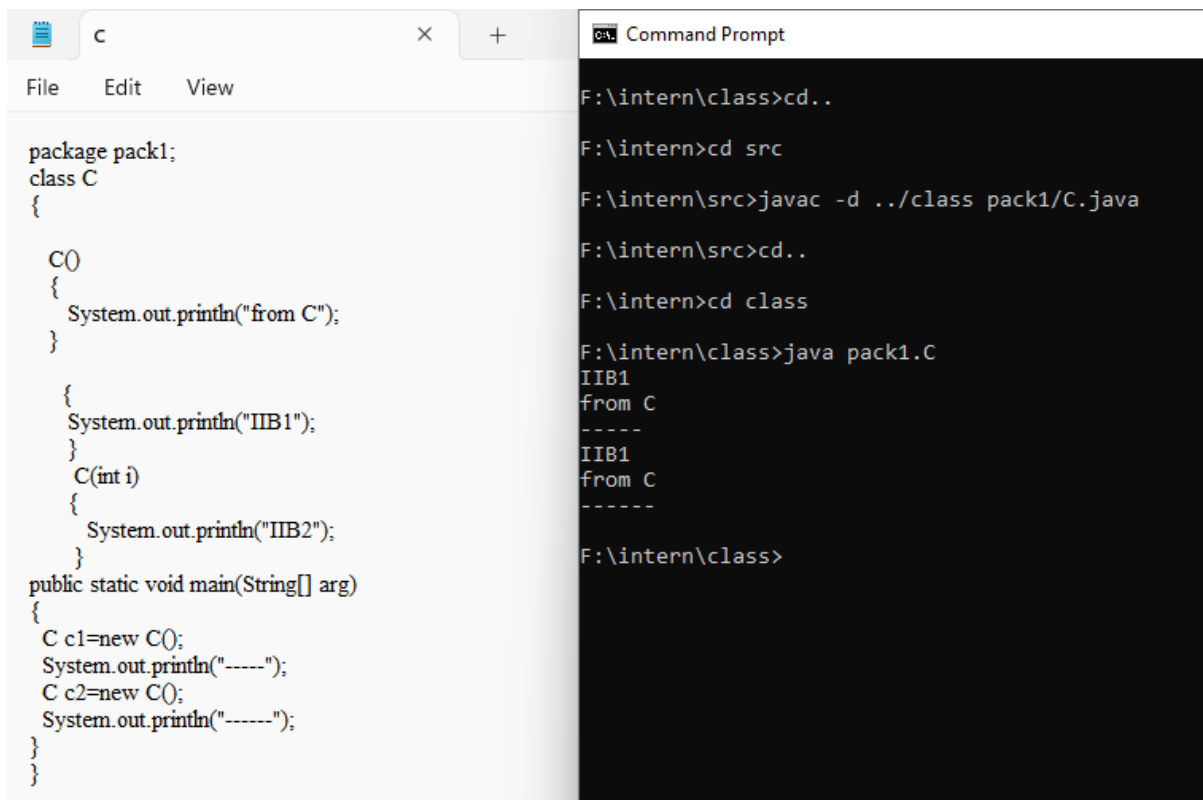

The screenshot shows an IDE window with a file named 'D.java' and a Command Prompt window. The IDE window displays the following code:

```
package pack1;
class D
{
    D()
    {
        System.out.println("from C");
    }

    {
        System.out.println("IIB1");
    }
    {
        System.out.println("IIB2");
    }
}
public static void main(String[] arg)
{
    D d1=new D();
    System.out.println("-----");
    D d2=new D();
    System.out.println("-----");
}
}
```

The Command Prompt window shows the following commands and output:

```
F:\intern\src>javac -d ../class pack1/D.java
F:\intern\src>cd..
F:\intern>cd class
F:\intern\class>java pack1.D
IIB1
IIB2
from C
-----
IIB1
IIB2
from C
-----
F:\intern\class>
```

The screenshot shows an IDE window with a file named 'C.java' and a Command Prompt window. The IDE window displays the following code:

```
package pack1;
class C
{
    C()
    {
        System.out.println("from C");
    }

    {
        System.out.println("IIB1");
    }
    C(int i)
    {
        System.out.println("IIB2");
    }
}
public static void main(String[] arg)
{
    C c1=new C();
    System.out.println("-----");
    C c2=new C();
    System.out.println("-----");
}
}
```

The Command Prompt window shows the following commands and output:

```
F:\intern\class>cd..
F:\intern>cd src
F:\intern\src>javac -d ../class pack1/C.java
F:\intern\src>cd..
F:\intern>cd class
F:\intern\class>java pack1.C
IIB1
from C
-----
IIB1
from C
-----
F:\intern\class>
```

```

P

File Edit View

```
package pack1;
class P
{
    P()
    {
        this(10,20);
        System.out.println("P()");
    }

    P(int i,int j)
    {
        System.out.println("P(int,int)");
    }
}

public static void main(String[] arg)
{
    P p1=new P();
    System.out.println("-----");
    P p2=new P(1,2);
    System.out.println("-----");
}
}
```

Command Prompt

```
F:\intern\src>
F:\intern\src>ccls
'ccls' is not recognized as an internal or external command,
operable program or batch file.
F:\intern\src>javac -d ../class pack1/P.java
F:\intern\src>cd..
F:\intern>cd class
F:\intern\class>java pack1.P
P(int,int)
P()
-----
P(int,int)
-----
F:\intern\class>
```

Q
